DELTA ONE

WHICH DOCUMENT DO I NEED?

Every document in one line: what it is, who it is for, when to open it

PARTNERS AND DISTRIBUTORS · OCTOBER 2026

WHAT THIS DOCUMENT IS

Every document in one line: what it is, who it is for, when to open it.

THE LIBRARY IN PLAIN WORDS

Which document do I need?

Every Delta One document in one line: what it is, who it is for, and when to open it. Start with the first table. If you only read three documents, read the Key Facts, The Plan in Simple Words and the Language Card.

I want to...	Open this
Understand the product in five minutes	The Plan in Simple Words
Show a friend what a module is and what can go wrong	Key Facts & Risks
Understand the whole compensation plan	The presentation, then the Distributor Guide
Know what I may say and may never say	The Language Card
Get set up: account, wallet, my own module	Getting Started Checklist
Buy USDT or take money out	USDT & Wallet Guide
Plan my first 90 days	First 90 Days Workbook (and the live Fast Start planner)
Know what to say to a prospect	Prospect Conversation Guide
Send a message I know is allowed	Follow-up Messages
Look after a new member	New Member Welcome Pack and the Member Journey Calendar
Understand my daily statement	Reading Your Daily Statement
Reach the next rank	The Rank Roadmap
Understand how leaders are paid	Breakage Differential, then the Leader's One-Pager
Explain who Delta One is	About Delta One
Know the rules I agree to	Policies & Procedures and the Distributor Agreement
Give someone the plan in their own language	Simple Words and Key Facts in 19 languages

Start here

Document	What it is	For	When
The presentation (17 slides)	The 17 slides that explain the whole plan. Aria reads them to you.	Everyone	Your first hour. Then every time you present.

Modules pay out at most 2× the purchase price (price included); remaining balances are kept by the DAO Treasury. No-profit or losing days pay nothing. Disclosure: illustrations at the engine's 0.50–1.00% average daily result; days vary from zero to several percent. Not a guarantee of earnings. Capital at risk. Result and rewards figures require compliance approval before external use. Not legal, tax or financial advice.

Document	What it is	For	When
The Plan in Simple Words	The plan in pictures and very short sentences. Anyone can read it.	Prospects and members	Give it to anyone who finds the other documents hard.
Key Facts & Risks	One page: what a module is, what it delivers, what can go wrong.	Every prospect	Before anyone buys. Always.
The Distributor Kit Index	The map of the kit: every document, in the order a new person needs it, and a five-day training plan.	New distributors	Your very first document.

For your customers

Document	What it is	For	When
Module Product Guide	Everything about a module, in order, with pictures: a day, the first 11 days, the switch, the end at 2×.	Members	After they have read the Key Facts and want the detail.
Member FAQ	The questions members ask, with short answers.	Members	When a member asks you something you are not sure about.
The Believer	What happens if you leave Auto-Rebuy on for a module's whole life: 220% instead of 200%.	Members who ask about the Believer	Day 11, when the switch unlocks.
Rewards Disclosure Statement	What members in the model earn, rank by rank. Most members earn no commission at all.	Every prospect	Hand it over with the Key Facts.
About Delta One	Who Delta One is: the engine, the founders, custody, settlement at 12:00 UTC.	Prospects	When someone asks 'who are these people?'
Privacy & KYC Note	What is collected for the identity check, why, and who sees it.	Members	When a member asks why they need to send an ID.

The plan

Document	What it is	For	When
7 Summits to Success (one page)	The whole plan as one picture: the 7 Summits to Success, the 2% ladder from 6% to 42%, the line limit and the daily cap for every rank.	Everyone	To hand over, pin up or show on a phone.
Distributor Guide	The plan written for a distributor: every rule with the reason behind it, four worked examples, the rewards disclosure.	Distributors	Your second day. Read it twice.
Cheat Sheet	The whole plan on one page: ranks, the three ways a contract pays, five rules.	Distributors	Keep it next to you when you talk.
Napkin Presentation	The plan in four sketches, the way you would draw it over coffee.	Distributors	A five-minute explanation to a friend.
Momentum Plan Guide	The complete plan with every rule and every number. The reference.	Distributors and partners	When you need the exact rule.
Line Balance Rule	One rule, one page: no single line can be more than half, a third, a quarter or a fifth of your rank volume.	Distributors and leaders	When someone asks why their rank did not move.
Breakage Differential	How leaders are paid: the gap between your rank's percentage and the percentages below you.	Leaders	When you reach Kilimanjaro and want to understand your leader pay.
The Rank Roadmap	Seven ranks, one page each: what it takes, what a team looks like, what it pays.	Distributors	When you set your next goal.

Your kit, step by step

Document	What it is	For	When
The Language Card	The words we use and the words we never use, and five sentences you can always say.	Distributors	Read it before your first conversation and once a week after.
Getting Started Checklist	Tick boxes: account, identity check, wallet, your own module, the first 11 days, your tools.	New members and distributors	Your first day, with your sponsor.
USDT & Wallet Guide	How to get USDT, send it to the app and take money out, and the mistakes that lose money.	Everyone who has never used USDT	Before the first purchase and before the first withdrawal.

Modules pay out at most 2× the purchase price (price included); remaining balances are kept by the DAO Treasury. No-profit or losing days pay nothing.
Disclosure: illustrations at the engine's 0.50–1.00% average daily result; days vary from zero to several percent. Not a guarantee of earnings. Capital at risk.
Result and rewards figures require compliance approval before external use. Not legal, tax or financial advice.

Document	What it is	For	When
First 90 Days Workbook	Your first 90 days on paper: dates, goals, lines, your list of 50.	New distributors	Day 1. Fill it in with a pen.
Member Journey Calendar	What happens to a member's module on day 0, 1, 11, 200, 400 and 440, and what you say on each day.	Distributors	Keep it with your member list.
Prospect Conversation Guide	How a good conversation goes: nine steps, seventeen questions, ten objections, ten comparisons that stay inside the rules.	Distributors	Before your first ten conversations.
Follow-up Messages	Ten messages you can send as they are, from first contact to day 11.	Distributors	Copy, paste, send.
New Member Welcome Pack	What to send a new member and when: day 0, 1, 11 and 200.	Distributors	The day someone buys.
Reading Your Daily Statement	The daily statement, line by line, so you can explain every number.	Members and distributors	The first time you open your statement.
The Leader's One-Pager	Three habits of a leader: open new lines, stay ahead, keep your leaders active.	Leaders	When your first distributor reaches a rank.

The rules (drafts for legal review)

Document	What it is	For	When
Policies & Procedures	The rules every distributor agrees to: claims, advertising, members, money, complaints, leaving. Draft for legal.	Distributors	Before you sign. Then when you are unsure if something is allowed.
Distributor Agreement	The agreement between you and Delta One. Draft for legal.	Distributors	Before you sign.

Founder seats

Document	What it is	For	When
Founder Seat Product Guide	Everything about a Founder NFT seat: the share, the seat module, the 30-day rule, the permanent NFT.	Founders	Before buying a seat.
Founder Key Facts	One page: what a seat is, what it pays, what can go wrong.	Every founder prospect	Before anyone buys a seat.

Modules pay out at most 2× the purchase price (price included); remaining balances are kept by the DAO Treasury. No-profit or losing days pay nothing.
Disclosure: illustrations at the engine's 0.50–1.00% average daily result; days vary from zero to several percent. Not a guarantee of earnings. Capital at risk.
Result and rewards figures require compliance approval before external use. Not legal, tax or financial advice.

Document	What it is	For	When
Founder FAQ	The questions founders ask, answered.	Founders	When a founder asks.
Launch Promotion Guide	The launch promotion: double share for the first year on seats paid by 11 October 2026.	Founders and distributors	While the launch window is open.
Promotion one-pager	The launch promotion on one page.	Founder prospects	To hand over.
Promotion flyer	The launch promotion as a flyer.	Founder prospects	To share.

The founders

Document	What it is	For	When
James Pack	Who James Pack is.	Everyone	When someone asks about the founders.
Ricky Lundell	Who Ricky Lundell is.	Everyone	When someone asks about the founders.
The Partnership	How the two founders work together and what standard they hold.	Everyone	When someone asks about the founders.

Partners only

Document	What it is	For	When
1B USDT Scale Model	What the plan looks like at 1 billion USDT of module sales.	Partners only	Board and treasury discussions.
Module Cycle Economics	How a module's money moves from purchase to 2×, and what the DAO Treasury keeps.	Partners only	Treasury discussions.
Math Audit	The check that every number in the library is right.	Partners	When someone doubts a figure.
1,000-Run Verification	The plan run 1,000 times on random organizations and five of ten million members: never more than 42%.	Partners	When someone asks 'can it overpay?'
Full Calculation Audit	Every formula shown in full.	Partners and auditors	Due diligence.

Modules pay out at most 2× the purchase price (price included); remaining balances are kept by the DAO Treasury. No-profit or losing days pay nothing.
Disclosure: illustrations at the engine's 0.50–1.00% average daily result; days vary from zero to several percent. Not a guarantee of earnings. Capital at risk.
Result and rewards figures require compliance approval before external use. Not legal, tax or financial advice.

Document	What it is	For	When
Technical Specification	How the back office must compute every payout. For the tech team.	Engineers	Building the system.

Three rules for every document

- The Key Facts come first. Nobody buys anything before reading them.
- Use the words on the Language Card. A module is a purchase, a day's result is a result, a rebuy is a rebuy.
- Every document is a draft for legal and compliance review until Delta One says otherwise. Most members earn no commission at all; nothing is guaranteed; only purchase with money you can afford to lose.

Draft for legal and compliance review. Not an offer. Every figure is a hypothetical illustration at the engine's average daily result of 0.50% a day; individual days vary from zero to several percent, the average can change, and results and rewards are not guaranteed. Most members earn no commission at all. A module is a software purchase whose price is not refundable and can be lost in whole or in part. Not legal, tax or financial advice.

DELTA ONE

THE DISTRIBUTOR KIT INDEX

Every document in the order a new person needs it, who gets what, and the first-week training path

DISTRIBUTORS · OCTOBER 2026

WHAT THIS DOCUMENT IS

The map of the kit: every document, in the order a new person needs it, and a five-day training plan.

THE DISTRIBUTOR KIT

Every document, in the order a new person needs it

The complete kit in one page: who gets what, in which order, and the first-week training path. P = prospect, M = member, D = distributor, L = leader. Items marked 'draft' are not in force until legal and compliance sign off.

Step	Document	What it is for	Who
0 · Before anything	Key Facts & Risks	One page. Every prospect reads it before deciding.	P M D L
	Rewards Disclosure Statement	What members in the model earn: most earn no commission.	P M D L
	The Language Card	What we say and never say; five sentences you can always use.	D L
1 · Understand the product	The Plan in Simple Words	One idea per page, a picture, short sentences; any language level.	P M D
	Module Product Guide	What a module is, how a day works, the first eleven days, the risks.	M D
	Member FAQ	Plain answers to the questions members ask.	M D
	The Believer	Auto-Rebuy for a module's whole life: the arithmetic.	M D
	The Momentum Plan cartoon · The Seed Farm	Four and three minutes; Aria narrates.	P M D
2 · Understand the plan	The presentation (17 slides) · narrated video · speaker edition	The plan start to finish; the speaker edition carries sales notes and Aria's audio.	P D L
	Momentum Plan Distributor Guide	Every rule with the logic behind it, four scenarios, the rewards disclosure.	D L
	Cheat Sheet · Napkin Presentation	The whole plan on one page; five minutes over coffee.	D
	Line Balance Rule · Breakage Differential	The two rules that decide rank and leader pay, each explained.	D L
	The Rank Roadmap	Seven ranks, one page each: requirements, the shape that holds the rank, what it pays.	D L
3 · Get set up	Getting Started Checklist	Account, identity check, wallet, own module, the first eleven days, your tools.	M D

Modules pay out at most 2× the purchase price (price included); remaining balances are kept by the DAO Treasury. No-profit or losing days pay nothing. Disclosure: illustrations at the engine's 0.50–1.00% average daily result; days vary from zero to several percent. Not a guarantee of earnings. Capital at risk. Result and rewards figures require compliance approval before external use. Not legal, tax or financial advice.

Step	Document	What it is for	Who
	USDT & Wallet Guide	Getting, sending and withdrawing USDT on BNB Smart Chain; the mistakes that lose money.	M D
4 · Plan the first 90 days	Fast Start planner (live page)	Enter your numbers; see what they pay at the average.	D
	First 90 Days Workbook	The planner on paper: dates, goals, lines, the list of 50.	D
	Member Journey Calendar	Day 0, 1, 11, 200, 400, 440: what happens and what to say.	D L
5 · Present to others	Prospect Conversation Guide	Nine moves, seventeen questions, ten objections, ten analogies.	D L
	Follow-up Messages	Ten compliant messages from first contact to day 11.	D
6 · Look after your people	New Member Welcome Pack	What to send and when.	D L
	Reading Your Daily Statement	Every line of the 12:00 UTC statement.	M D L
7 · Lead	The Leader's One-Pager	Open new lines, stay ahead, keep leaders active.	L
8 · Founder seats (while the window is open)	Founder Seat Product Guide · Key Facts · FAQ · Promotion guide, one-pager, flyer	The seats, the share, the seat module, the permanent NFT.	P D L
9 · The company	About Delta One	The engine, the founders, custody and settlement.	P M D

	Distributor Agreement	Appointment, commission, obligations, ending.	D L
	Privacy & KYC Note	What is collected, why, who sees it.	M D

Modules pay out at most 2× the purchase price (price included); remaining balances are kept by the DAO Treasury. No-profit or losing days pay nothing.
Disclosure: illustrations at the engine's 0.50–1.00% average daily result; days vary from zero to several percent. Not a guarantee of earnings. Capital at risk.
Result and rewards figures require compliance approval before external use. Not legal, tax or financial advice.

WHO GETS WHAT

The four readers

Reader	Hand them	Never hand them
A prospect	Key Facts first. Then, if they ask: Simple Words, the presentation or Napkin, the Rewards Disclosure Statement, About Delta One.	Anything with your own figures; partner documents; a module size.
A new member	Simple Words, Module Product Guide, Member FAQ, USDT & Wallet Guide, Privacy & KYC Note; the Member Journey Calendar messages on day 0, 11 and 200.	Distributor material unless they ask to introduce others.
A new distributor	The whole kit in the order above, starting with the Language Card and the Rewards Disclosure Statement, then the Getting Started Checklist.	Partner-only documents: Treasury models, audits, the technical specification, Aria's playbook.
A leader	The Leader's One-Pager, the Rank Roadmap, the Breakage Differential guide; the Policies & Procedures in full.	Nothing extra: a leader is a distributor who teaches the same kit.

THE FIRST WEEK

A five-day training path

One hour a day. Everything is on the distributor site; Aria narrates the presentation and the cartoons, so the first two days can be listened to.

Day 1 · The product

- [ ] Read the Key Facts and The Plan in Simple Words.
- [ ] Watch the Momentum Plan cartoon and The Seed Farm.
- [ ] Read the Module Product Guide, chapters 1–4.
- [ ] Do the Getting Started Checklist, parts 1–2, with your sponsor.

Day 2 · The plan

- [ ] Watch the narrated presentation (11 minutes). Listen to Aria's full walkthrough once more while reading the slides.
- [ ] Read the Distributor Guide, chapters 1–6, and the Cheat Sheet.
- [ ] Write the six rules from memory. Check them.

Modules pay out at most 2× the purchase price (price included); remaining balances are kept by the DAO Treasury. No-profit or losing days pay nothing. Disclosure: illustrations at the engine's 0.50–1.00% average daily result; days vary from zero to several percent. Not a guarantee of earnings. Capital at risk. Result and rewards figures require compliance approval before external use. Not legal, tax or financial advice.

Day 3 · The rules of speech

- [ ] Read the Language Card twice and the Rewards Disclosure Statement once.
- [ ] Read the Policies & Procedures, sections 3 and 4.
- [ ] Say the five sentences out loud until they are yours. Record yourself reading the disclosure page.

Day 4 · Money and members

- [ ] Read the USDT & Wallet Guide and make your first 5 USDT test withdrawal on day 11 (note the date).
- [ ] Read the Member Journey Calendar and the Welcome Pack.
- [ ] Read Reading Your Daily Statement and open your own statement in the app.

Day 5 · Your plan

- [ ] Open the Fast Start planner, enter your numbers, print the First 90 Days Workbook.
- [ ] Read the Rank Roadmap page for your target rank and the Prospect Conversation Guide.
- [ ] Write your list of 50 and book your first ten conversations. Send each person the Key Facts.

NOT YET IN THE KIT

What is still to come

- Compliance sign-off: until then every document carries 'draft for legal and compliance review' and nothing goes to a prospect outside a supervised test.
- App screenshots in the Getting Started Checklist and the USDT guide, once the app is final.
- Actual rewards figures to replace the model in the Rewards Disclosure Statement, after twelve months of operation.
- Translations of the Simple Words document and the Key Facts (in production), then of the Checklist and the Language Card.
- The Policies, the Agreement and the Privacy Note as approved by counsel, with the issuing entity and the governing law filled in.

Draft for legal and compliance review. Not an offer. Every figure is a hypothetical illustration at the engine's average daily result of 0.50% a day; individual days vary from zero to several percent, the average can change, and results and rewards are not guaranteed. Most members earn no commission at all. A module is a software purchase whose price is not refundable and can be lost in whole or in part. Not legal, tax or financial advice.

DELTA ONE

REWARDS DISCLOSURE

What members earn from the Momentum Plan · the model, not a promise

MEMBERS · DISTRIBUTORS · OCTOBER 2026

WHAT THIS DOCUMENT IS

What members in the model earn, rank by rank. Most members earn no commission at all.

REWARDS DISCLOSURE STATEMENT

What members earn from the Momentum Plan

Read this before you decide, and give it to every person you introduce. It is the whole truth about commission in one page.

Most members earn no commission at all. In Delta One's own model of a 10,000-member organization, 79% of members hold no rank and receive nothing from the plan. They receive only their own module's results. Commission depends on building and keeping an organization, on the line balance rule, and on the engine actually making a profit on the day.

The model, not a promise

The figures below come from a simulated organization of 10,000 members, every member with an active module, ranks assigned by the published rules, at the engine's average daily result of 0.50% a day on every module. They are arithmetic, not experience: Delta One has no operating history to report, and when it does, this page will carry the real figures instead.

Rank	Members in the model	Share of members	Average commission per month	Average per year
Unranked	7,944	79.4%	0 USDT	0 USDT
Fuji	1,336	13.4%	398 USDT	4,838 USDT
Kilimanjaro	527	5.3%	1,273 USDT	15,485 USDT
Matterhorn	133	1.3%	4,947 USDT	60,183 USDT
Denali	51	0.5%	8,875 USDT	107,984 USDT
Rainier	5	0.1%	24,772 USDT	301,399 USDT
K-2	3	0.0%	43,137 USDT	524,833 USDT
Everest	0	0.0%	—	—

Average commission = base matrix after daily caps plus the breakage differential, per member at that rank, divided by the members at that rank. 'Per year' is the monthly figure × 12.17. No Everest qualified in the model.

What the numbers mean

- Commission is a share of what the modules in your organization **earned that day** from trading, never a share of what anyone paid. A day without trading profit pays nobody.
- Rank is rechecked at every 12:00 UTC settlement and needs three things at once: your own active purchase, your personal enrollees, and qualifying volume with no single line counting for more than its share.
- The averages hide the spread: within a rank, members with balanced lines earn more and members with one heavy line earn less. The Distributor Guide shows four worked organizations.

- Your own module's results are not commission and are not in this table. At the average, a 1,000 USDT module delivers 5 USDT a day until it has delivered 2,000 USDT, then ends.

What is not in these numbers

- Any cost of building: time, travel, devices, the modules you must hold yourself (1,000 USDT at Fuji to 200,000 USDT at Everest).
- Days with no profit, and periods with a lower average than 0.50%. Both make every figure smaller.
- Tax. Commission is rewards where you live; take advice.

Results and rewards are not guaranteed by Delta One, a bank or any government scheme. A module is a software purchase; the purchase price is not refundable and can be lost. Only purchase with money you can afford to lose. This statement is a draft for legal and compliance review and will be replaced with actual figures once Delta One has twelve months of history.

DELTA ONE

THE LANGUAGE CARD

What we say and what we never say · five sentences you can always use

DISTRIBUTORS · OCTOBER 2026

WHAT THIS DOCUMENT IS

The words we use and the words we never use, and five sentences you can always say.

WHAT WE SAY · WHAT WE NEVER SAY

The language card

Carry this. Every sentence a distributor says or writes about Delta One follows it: in person, on WhatsApp, on social media, on a stage.

Say	Don't say	Why
purchase · purchase price · a module of the AI engine	deposit · invest · investment · principal · capital you put in	A module is a software purchase. 'Deposit' and 'investment' are wrong and are compliance problems.
rebuy · Auto-Rebuy · rebuy module	reinvest · compound · roll over	The feature is called rebuy. 'Reinvest' never appears anywhere.
result · daily result · the engine's average daily result	return · ROI · yield · interest · dividend	'Return' and 'interest' are retired words. The engine produces a result; the module receives a share of it.
average · on average · at the average daily result	guaranteed · fixed · every day you get · you will earn	Days vary from zero to several percent. Nothing is guaranteed. Say 'average' every time a rate or a date appears.
commission · the Momentum Plan · the base matrix · the breakage differential	passive income · residual · bonus pool · recruitment bonus	Commission is a share of what a contract earned that day, never of a purchase. Nobody is paid for recruiting.
contract's daily earnings · the module's result	the company pays you · profit share from the company	The money is trading profit the engine made that day, split 50 / 25 / 25.
AI trading engine · Delta One AI engine · software as a service	fund · scheme · program · platform that invests	Written 'AI', spoken 'A I'. It is software the member purchases in modules.
most members earn no commission at all	typical results · average earnings of members	The rewards disclosure says most members earn no commission; the figures are arithmetic at the average, not typical results.
Delta One · the DAO Treasury	Genesis 001	The Treasury's top position is never mentioned in customer-facing material. Say: commission no member qualifies for stays with Delta One.
Momentum Plan · 2% per level · 42% pool	2% Plus · 1% plan · compensation plan guide (old)	The adopted plan is the Momentum Plan: 2% per level on up to 21 levels plus the breakage differential. All 1% material is withdrawn.

Five sentences you can always use

- "A module is a purchase of the Delta One AI trading engine, software as a service, from 1,000 USDT. It delivers at most two times its purchase price, price included, then it ends."
- "Half a percent a day is the engine's average daily result. Some days are zero, some are more, and the average can change. Nothing is guaranteed."
- "Every 100 USDT of trading profit is shared 50 USDT to members, 25 USDT to the plan and 25 USDT to Delta One. No profit, no payout."
- "If you introduce someone, you are paid 2% of what their module earns each day, on each level your rank reaches. Most members earn no commission at all."
- "Read the Key Facts before you buy, and only purchase with money you can afford to lose."

Modules pay out at most 2× the purchase price (price included); remaining balances are kept by the DAO Treasury. No-profit or losing days pay nothing. Disclosure: illustrations at the engine's 0.50–1.00% average daily result; days vary from zero to several percent. Not a guarantee of earnings. Capital at risk. Result and rewards figures require compliance approval before external use. Not legal, tax or financial advice.

Seven things that end a distributorship

- Promising, implying or 'guaranteeing' any result, rate or date.
- Calling a module a deposit, an investment, a fund or an account; calling results returns, interest or yield.
- Quoting a figure that is not in a published Delta One document, or quoting one without the word 'average'.
- Showing anyone's earnings as typical, or recruiting with your own statement.
- Presenting Delta One as a bank, a regulated fund or a government-backed product, or as risk-free.
- Advertising on social media without the disclosure line and the 'draft' status until compliance has signed off.
- Mentioning the Treasury's internal positions, trading accounts or anything from partner-only documents.

The test before you send anything: does it say "average"? does it say "not guaranteed"? does it say "purchase", not deposit? would compliance sign it? If any answer is no, do not send it.

Modules pay out at most 2× the purchase price (price included); remaining balances are kept by the DAO Treasury. No-profit or losing days pay nothing. Disclosure: illustrations at the engine's 0.50–1.00% average daily result; days vary from zero to several percent. Not a guarantee of earnings. Capital at risk. Result and rewards figures require compliance approval before external use. Not legal, tax or financial advice.

DELTA ONE

THE RANK ROADMAP

Seven ranks, one page each: requirements, the shape that holds the rank, what it pays

DISTRIBUTORS · OCTOBER 2026

WHAT THIS DOCUMENT IS

Seven ranks, one page each: what it takes, what a team looks like, what it pays.

Draft for legal and compliance review

THE SEVEN RANKS

What each rank looks like, and what it pays

One page per rank: the three requirements, an organization that just holds the rank, and what that organization pays at the engine's average daily result. Every figure is computed with the same engine as the Momentum Plan Guide; every figure is an average, not a promise.

Three requirements, checked together at every 12:00 UTC settlement: your **own active purchase**, your **personally enrolled** members with an active module, and your **qualifying volume**, where no single line counts for more than its share. Only active modules count. The example organization on each page is balanced on purpose: that is the shape the line rule rewards.

Rank	Own purchase	Enrolled	Qualifying volume	Max per line	Paid levels	Entitlement	Daily cap (base)
1 · Fuji	1,000 USDT	2	2,000 USDT	50% · 2+ lines	1–3	6%	1,000 USDT
2 · Kilimanjaro	2,500 USDT	3	5,000 USDT	50% · 2+ lines	1–6	12%	2,000 USDT
3 · Matterhorn	6,000 USDT	4	12,000 USDT	33⅓% · 3+ lines	1–9	18%	3,000 USDT
4 · Denali	12,000 USDT	5	25,000 USDT	33⅓% · 3+ lines	1–12	24%	4,000 USDT
5 · Rainier	25,000 USDT	7	75,000 USDT	25% · 4+ lines	1–15	30%	5,000 USDT
6 · K-2	50,000 USDT	12	250,000 USDT	20% · 5+ lines	1–18	36%	6,000 USDT
7 · Everest	200,000 USDT	21	1,000,000 USDT	20% · 5+ lines	1–21	42%	7,000 USDT

RANK 1 OF 7

Fuji: 2 lines, 2,000 USDT of volume

Two people and 2,000 USDT of balanced volume. Your own 1,000 USDT module. This is the rank everyone can reach in the first week; its purpose is the habit: ten conversations, two enrollments, the Key Facts sent first.

Modules pay out at most 2× the purchase price (price included); remaining balances are kept by the DAO Treasury. No-profit or losing days pay nothing. Disclosure: illustrations at the engine's 0.50–1.00% average daily result; days vary from zero to several percent. Not a guarantee of earnings. Capital at risk. Result and rewards figures require compliance approval before external use. Not legal, tax or financial advice.

OWN PURCHASE
1,000 USDT
your own active module

LINES
2
each 1,000 USDT of volume

PAID LEVELS
1–3
6% entitlement

PER MONTH, THIS SHAPE
18 USDT
base + differential, at the average

You hold 1,000 USDT. Each of your 2 lines is one person you enrolled with a 1,000 USDT module. Line volume 1,000 USDT; the rank's share limit is 1,000 USDT, so every USDT counts.

What it pays, per day	Base matrix	Differential	Total	Per 30 days
On 2,000 USDT of modules at 0.50% a day	0.20 USDT	0.40 USDT	0.60 USDT	18.00 USDT
Your own module's result (not commission)			5.00 USDT	150.00 USDT

Base: 2% of every module's daily result on levels 1–2 of this shape, capped at 1,000 USDT a day. Differential: the gap between your 6% entitlement and the highest entitlement claimed below you in each line. Days without profit pay nothing; a lower average pays proportionally less. Most members earn no commission at all.

What to do to get here

- [ ] Buy your own module (1,000 USDT or more).
- [ ] Enroll two people who each buy a module; send the Key Facts first.
- [ ] Hold it: rank is rechecked daily and only active modules count.

RANK 2 OF 7

Kilimanjaro: 3 lines, 5,000 USDT of volume

Three lines. Help each of your first two people introduce one person, then open a third line yourself. Your own purchase steps to 2,500 USDT: plan it at the start, not at the end.

OWN PURCHASE
2,500 USDT
your own active module

LINES
3
each 1,667 USDT of volume

PAID LEVELS
1–6
12% entitlement

PER MONTH, THIS SHAPE
90 USDT
base + differential, at the average

You hold 2,500 USDT. Each of your 3 lines is one person you enrolled with a 1,667 USDT module. Line volume 1,667 USDT; the rank's share limit is 2,500 USDT, so every USDT counts.

What it pays, per day	Base matrix	Differential	Total	Per 30 days
On 5,000 USDT of modules at 0.50% a day	0.50 USDT	2.50 USDT	3.00 USDT	90.00 USDT
Your own module's result (not commission)			12.50 USDT	375.00 USDT

Base: 2% of every module's daily result on levels 1–2 of this shape, capped at 2,000 USDT a day. Differential: the gap between your 12% entitlement and the highest entitlement claimed below you in each line. Days without profit pay nothing; a lower average pays proportionally less. Most members earn no commission at all.

What to do to get here

- [ ] Own purchase to 2,500 USDT (a second module, or one of 2,500 USDT).
- [ ] Three lines: your first two people plus one more, with 5,000 USDT of balanced volume.
- [ ] Sit with each new member on day 1 and day 11.

RANK 3 OF 7

Matterhorn: 4 lines, 12,000 USDT of volume

Four balanced lines of 3,000 USDT. One line of 10,000 USDT would count only 4,000 USDT: this is the rank where the line rule first bites, so the roadmap is wide before deep. Own purchase 6,000 USDT.

OWN PURCHASE
6,000 USDT
your own active module

LINES
4
each 3,000 USDT of volume

PAID LEVELS
1–9
18% entitlement

PER MONTH, THIS SHAPE
252 USDT
base + differential, at the average

You hold 6,000 USDT. Each of your 4 lines is one person you enrolled with a 1,000 USDT module and 2 people under them with 1,000 USDT modules each (Fuji rank for that leader). Line volume 3,000 USDT; the rank's share limit is 4,000 USDT, so every USDT counts.

What it pays, per day	Base matrix	Differential	Total	Per 30 days
On 12,000 USDT of modules at 0.50% a day	1.20 USDT	7.20 USDT	8.40 USDT	252.00 USDT
Your own module's result (not commission)			30.00 USDT	900.00 USDT

Base: 2% of every module's daily result on levels 1–2 of this shape, capped at 3,000 USDT a day. Differential: the gap between your 18% entitlement and the highest entitlement claimed below

you in each line. Days without profit pay nothing; a lower average pays proportionally less. Most members earn no commission at all.

What to do to get here

- [ ] Own purchase to 6,000 USDT.
- [ ] Four lines of about 3,000 USDT each; help each leader introduce two people.
- [ ] Check the line rule before every enrollment: a fourth line beats a bigger first line.

RANK 4 OF 7

Denali: 5 lines, 25,000 USDT of volume

Five lines of 5,000 USDT each, every line led by someone who has opened lines of their own. From here on your job is leaders, not members: a leader who ranks in each line is the shape that lasts.

OWN PURCHASE	LINES	PAID LEVELS	PER MONTH, THIS SHAPE
12,000 USDT	5	1–12	720 USDT
your own active module	each 5,000 USDT of volume	24% entitlement	base + differential, at the average

You hold 12,000 USDT. Each of your 5 lines is one person you enrolled with a 1,000 USDT module and 4 people under them with 1,000 USDT modules each (Fuji rank for that leader). Line volume 5,000 USDT; the rank's share limit is 8,333 USDT, so every USDT counts.

What it pays, per day	Base matrix	Differential	Total	Per 30 days
On 25,000 USDT of modules at 0.50% a day	2.50 USDT	21.50 USDT	24.00 USDT	720.00 USDT
Your own module's result (not commission)			60.00 USDT	1,800.00 USDT

Base: 2% of every module's daily result on levels 1–2 of this shape, capped at 4,000 USDT a day. Differential: the gap between your 24% entitlement and the highest entitlement claimed below you in each line. Days without profit pay nothing; a lower average pays proportionally less. Most members earn no commission at all.

What to do to get here

- [ ] Own purchase to 12,000 USDT.
- [ ] Five lines of about 5,000 USDT, each led by someone with lines of their own.
- [ ] Teach the six rules to every leader; your differential depends on their lines.

Modules pay out at most 2× the purchase price (price included); remaining balances are kept by the DAO Treasury. No-profit or losing days pay nothing. Disclosure: illustrations at the engine's 0.50–1.00% average daily result; days vary from zero to several percent. Not a guarantee of earnings. Capital at risk. Result and rewards figures require compliance approval before external use. Not legal, tax or financial advice.

RANK 5 OF 7

Rainier: 7 lines, 75,000 USDT of volume

Seven lines, four of them at least 18,750 USDT. Rainier is a year of steady building for most people; the differential from leaders below you is now the larger part of your rewards.

OWN PURCHASE
25,000 USDT
your own active module

LINES
7
each 10,714 USDT of volume

PAID LEVELS
1–15
30% entitlement

PER MONTH, THIS SHAPE
2,808 USDT
base + differential, at the average

You hold 25,000 USDT. Each of your 7 lines is one person you enrolled with a 1,714 USDT module and 9 people under them with 1,000 USDT modules each (Fuji rank for that leader). Line volume 10,714 USDT; the rank's share limit is 18,750 USDT, so every USDT counts.

What it pays, per day	Base matrix	Differential	Total	Per 30 days
On 75,000 USDT of modules at 0.50% a day	7.50 USDT	86.10 USDT	93.60 USDT	2,808.00 USDT
Your own module's result (not commission)			125.00 USDT	3,750.00 USDT

Base: 2% of every module's daily result on levels 1–2 of this shape, capped at 5,000 USDT a day. Differential: the gap between your 30% entitlement and the highest entitlement claimed below you in each line. Days without profit pay nothing; a lower average pays proportionally less. Most members earn no commission at all.

What to do to get here

- [ ] Own purchase to 25,000 USDT.
- [ ] Seven lines; four of them at 18,750 USDT or more, led by Matterhorns.
- [ ] Open new lines where you are the first leader: that is where the whole gap is yours.

RANK 6 OF 7

K-2: 12 lines, 250,000 USDT of volume

Twelve lines, five of them at least 50,000 USDT each. Only organizations with Matterhorn and Denali leaders below you reach this volume; your work is coaching the people who coach.

Modules pay out at most 2× the purchase price (price included); remaining balances are kept by the DAO Treasury. No-profit or losing days pay nothing. Disclosure: illustrations at the engine's 0.50–1.00% average daily result; days vary from zero to several percent. Not a guarantee of earnings. Capital at risk. Result and rewards figures require compliance approval before external use. Not legal, tax or financial advice.

OWN PURCHASE
50,000 USDT
your own active module

LINES
12
each 20,833 USDT of volume

PAID LEVELS
1–18
36% entitlement

PER MONTH, THIS SHAPE
11,448 USDT
base + differential, at the average

You hold 50,000 USDT. Each of your 12 lines is one person you enrolled with a 1,833 USDT module and 19 people under them with 1,000 USDT modules each (Fuji rank for that leader). Line volume 20,833 USDT; the rank's share limit is 50,000 USDT, so every USDT counts.

What it pays, per day	Base matrix	Differential	Total	Per 30 days
On 250,000 USDT of modules at 0.50% a day	25.00 USDT	356.60 USDT	381.60 USDT	11,448.00 USDT
Your own module's result (not commission)			250.00 USDT	7,500.00 USDT

Base: 2% of every module's daily result on levels 1–2 of this shape, capped at 6,000 USDT a day. Differential: the gap between your 36% entitlement and the highest entitlement claimed below you in each line. Days without profit pay nothing; a lower average pays proportionally less. Most members earn no commission at all.

What to do to get here

- [ ] Own purchase to 50,000 USDT.
- [ ] Twelve lines; five at 50,000 USDT or more, each with a Denali or Matterhorn leader.
- [ ] Stay ahead: when a leader matches your rank, their part of the gap is theirs.

RANK 7 OF 7

Everest: 21 lines, 1,000,000 USDT of volume

Twenty-one lines and 1,000,000 USDT of qualifying volume with no line above 200,000 USDT; own purchase 200,000 USDT. Everest is the rank of someone who has built leaders in five countries, not of a seller.

Modules pay out at most 2× the purchase price (price included); remaining balances are kept by the DAO Treasury. No-profit or losing days pay nothing. Disclosure: illustrations at the engine's 0.50–1.00% average daily result; days vary from zero to several percent. Not a guarantee of earnings. Capital at risk. Result and rewards figures require compliance approval before external use. Not legal, tax or financial advice.

OWN PURCHASE
200,000 USDT
your own active module

LINES
21
each 47,619 USDT of volume

PAID LEVELS
1–21
42% entitlement

PER MONTH, THIS SHAPE
51,306 USDT
base + differential, at the average

You hold 200,000 USDT. Each of your 21 lines is one person you enrolled with a 1,619 USDT module and 46 people under them with 1,000 USDT modules each (Fuji rank for that leader). Line volume 47,619 USDT; the rank's share limit is 200,000 USDT, so every USDT counts.

What it pays, per day	Base matrix	Differential	Total	Per 30 days
On 1,000,000 USDT of modules at 0.50% a day	100.00 USDT	1,610.20 USDT	1,710.20 USDT	51,306.00 USDT
Your own module's result (not commission)			1,000.00 USDT	30,000.00 USDT

Base: 2% of every module's daily result on levels 1–2 of this shape, capped at 7,000 USDT a day. Differential: the gap between your 42% entitlement and the highest entitlement claimed below you in each line. Days without profit pay nothing; a lower average pays proportionally less. Most members earn no commission at all.

What to do to get here

- [ ] Own purchase to 200,000 USDT.
- [ ] Twenty-one lines; 1,000,000 USDT of qualifying volume with no line counting more than 200,000 USDT.
- [ ] Everest is held by keeping leaders active as their modules reach 2× and renew.

Draft for legal and compliance review. Not an offer. Every figure is a hypothetical illustration at the engine's average daily result of 0.50% a day; individual days vary from zero to several percent, the average can change, and results and rewards are not guaranteed. Most members earn no commission at all. A module is a software purchase whose price is not refundable and can be lost in whole or in part. Not legal, tax or financial advice.

DELTA ONE

GETTING STARTED

Your first day, step by step · account, module, the first eleven days, your tools

NEW DISTRIBUTORS · OCTOBER 2026

WHAT THIS DOCUMENT IS

Tick boxes: account, identity check, wallet, your own module, the first 11 days, your tools.

GETTING STARTED

Your first day, step by step

Everything to do before your first conversation, in order. Tick each box; the whole list takes one afternoon. Screens are described in words until the app is final; your sponsor can sit with you.

Part 1 · Your account

- [ ] Install the Delta One app (or open the web app) and create your account with the enroller link your sponsor sent you. The enroller cannot be changed after your first module is confirmed, so check the name on the screen.
- [ ] Complete identity verification (KYC): a government ID and a selfie. Approval usually arrives the same day.
- [ ] Add your own BEP-20 wallet address for withdrawals (section 3 of the USDT guide). Delta One sends your money only to that address.
- [ ] Turn on two-factor authentication. Write the recovery codes on paper and keep them away from your phone.

Part 2 · Your own module

- [ ] Decide the size. Fuji needs a 1,000 USDT own purchase; Kilimanjaro 2,500 USDT; Matterhorn 6,000 USDT; Denali 12,000 USDT. Buy only what you can afford to lose entirely; the price is not refundable.
- [ ] Decide the Believer question now: Auto-Rebuy locked ON for the module's whole life delivers 220% instead of 200% and cannot be changed afterwards. Not sure? Choose standard.
- [ ] Send the exact amount in USDT on BNB Smart Chain (BEP-20) to the payment address the app shows. Any other network loses the money.
- [ ] Wait for the confirmation screen. Your module earns from the first 12:00 UTC settlement after the day the payment is confirmed: pay on Monday, the first result lands on Tuesday at 12:00 UTC.
- [ ] Read the Key Facts (one page) and the Module Product Guide. Then read the disclosure page of the presentation out loud, once.

Part 3 · The first eleven days

- [ ] Days 1–10: each day's result opens a small rebuy module automatically. Watch them appear; you do nothing.
- [ ] Day 11: your first result you can take out. Open the app wallet, see the balance, and make one small withdrawal (from 5 USDT) to your BEP-20 address to prove the whole path works. The network fee is deducted.

Modules pay out at most 2× the purchase price (price included); remaining balances are kept by the DAO Treasury. No-profit or losing days pay nothing. Disclosure: illustrations at the engine's 0.50–1.00% average daily result; days vary from zero to several percent. Not a guarantee of earnings. Capital at risk. Result and rewards figures require compliance approval before external use. Not legal, tax or financial advice.

- [ ] Day 11 onward: set your Auto-Rebuy switch. ON = every result rebuys. OFF = every result goes to the app wallet. Change it on any day; the setting at 12:00 UTC applies.

Part 4 · Your tools

- [ ] Download the kit: the presentation, the Key Facts, the Simple Words document, the Product Guide, the Cheat Sheet, the Napkin, the Language Card and this list.
- [ ] Watch the three films (the presentation narrated, the Momentum Plan cartoon, the Seed Farm) once each.
- [ ] Open the Fast Start planner, enter your start date and your own module, and print your 90-day page.
- [ ] Write your list of 50 names, without judging. Book your first ten conversations for this week and send each person the Key Facts before you meet.

Part 5 · Before you speak to anyone

- [ ] Read the Language Card twice. Say the five sentences out loud until they are yours.
- [ ] Read the Rewards Disclosure Statement and keep a copy with you: most members earn no commission at all, and you say so.
- [ ] Know the six rules by heart: paid on earnings, never on purchases · no profit, no payout · balance your lines · stay ahead · modules end at 2× · paid daily, in USDT.

Your sponsor's job on day one is this list, with you, screen by screen. If you are a sponsor: do not send this list, sit down and do it.

Modules pay out at most 2× the purchase price (price included); remaining balances are kept by the DAO Treasury. No-profit or losing days pay nothing. Disclosure: illustrations at the engine's 0.50–1.00% average daily result; days vary from zero to several percent. Not a guarantee of earnings. Capital at risk. Result and rewards figures require compliance approval before external use. Not legal, tax or financial advice.

DELTA ONE

USDT AND YOUR WALLET

A beginner's guide to getting, sending and withdrawing USDT on BNB Smart Chain

MEMBERS · DISTRIBUTORS · OCTOBER 2026

WHAT THIS DOCUMENT IS

How to get USDT, send it to the app and take money out, and the mistakes that lose money.

Draft for legal and compliance review

01 · WHAT USDT IS

Money on the blockchain, in plain words

Delta One is paid in USDT and pays in USDT. This guide is for someone who has never held a digital dollar. Read it before you send anything.

USDT (Tether) is a digital dollar: one USDT is designed to be worth one US dollar. It lives on a blockchain, a public ledger that no single company controls, and it moves from one wallet to another in minutes, day or night, across borders, for a small network fee. It is money you hold yourself: no bank account is needed, and nobody can freeze a transfer, which also means nobody can reverse one.

A wallet is an app (or a small device) that holds your USDT and the private key that controls it. Your **address** is like an account number: a string starting with `0x` that you can share. Your **seed phrase** (12 or 24 words) is the master key: anyone who has it owns everything in the wallet. Write it on paper, never type it into a website, never photograph it, never share it, not even with Delta One. Delta One will never ask for it.

The network matters. USDT exists on several blockchains. Delta One uses **BNB Smart Chain, called BEP-20**. USDT sent on another network (Ethereum ERC-20, Tron TRC-20, Solana, Polygon) goes to an address Delta One cannot see and is lost. Every time you send, the screen will ask which network: the answer is always **BNB Smart Chain (BEP-20)**.

02 · GETTING USDT

Three ways to get it

Way	How it works	Good for
An exchange	Open an account at a regulated exchange that operates in your country (identity check required), buy USDT with a bank transfer or card, then withdraw it to your own wallet choosing the BEP-20 network.	Most people. Fees are low and the process is documented.
A trusted person	Someone who already holds USDT sends it to your wallet, and you pay them in cash or by bank transfer. Only with someone you know; confirm the amount on screen before you pay.	Small amounts; countries where exchanges are hard to use.
Peer-to-peer market	An exchange's P2P section matches you with a seller; the exchange holds the USDT until your payment clears.	Countries where card purchase is unavailable.

Keep a small amount of **BNB** in the same wallet: the network fee for sending USDT on BNB Smart Chain is paid in BNB, usually a few cents. A wallet with USDT and no BNB cannot send.

Modules pay out at most 2× the purchase price (price included); remaining balances are kept by the DAO Treasury. No-profit or losing days pay nothing. Disclosure: illustrations at the engine's 0.50–1.00% average daily result; days vary from zero to several percent. Not a guarantee of earnings. Capital at risk. Result and rewards figures require compliance approval before external use. Not legal, tax or financial advice.

03 · YOUR WALLET

Setting up the wallet you control

- [ ] Install a reputable self-custody wallet app (your sponsor will name the ones Delta One has tested) from the official app store only.
- [ ] Create a new wallet. Write the seed phrase on paper, twice, and keep the two copies in different safe places. Confirm it in the app.
- [ ] Add the BNB Smart Chain network if the app does not show it, and add the USDT (BEP-20) token so your balance shows.
- [ ] Copy your BEP-20 address and paste it into your Delta One profile as the withdrawal address. Check the first four and last four characters match on both screens.
- [ ] Send a small test amount first, from the exchange to the wallet, and from the wallet to Delta One. Only then send the real amount.

04 · PAYING FOR A MODULE

Sending the purchase price

- In the Delta One app choose the module size and copy the payment address it shows. Addresses can be unique per purchase; never reuse an old one.
- In your wallet: send USDT, paste the address, choose **BNB Smart Chain (BEP-20)**, enter the exact amount, check the first and last four characters of the address again, and confirm.
- Wait. A BEP-20 transfer confirms in about a minute; the app shows the module as confirmed shortly after. Your module earns from the first 12:00 UTC settlement after the day of confirmation.
- Keep the transaction hash (the long code your wallet shows). It is your receipt.

05 · WITHDRAWING

Taking money out of the app wallet

- Results with the switch OFF, commissions and founder payouts land in your Delta One app wallet in USDT at the 12:00 UTC settlement.
- Withdraw any time, 5 USDT minimum, to the BEP-20 address in your profile. It is sent immediately; the network fee is deducted from the amount; there is no other fee.
- Make your first withdrawal small, on day 11, to prove the path. Then withdraw as you like.

Modules pay out at most 2× the purchase price (price included); remaining balances are kept by the DAO Treasury. No-profit or losing days pay nothing.
Disclosure: illustrations at the engine's 0.50–1.00% average daily result; days vary from zero to several percent. Not a guarantee of earnings. Capital at risk.
Result and rewards figures require compliance approval before external use. Not legal, tax or financial advice.

06 · MISTAKES THAT LOSE MONEY

Read this twice

Mistake	What happens	How to avoid it
Wrong network	USDT sent as ERC-20, TRC-20 or any network other than BNB Smart Chain (BEP-20) is lost.	Read the network name on the sending screen every time.
Wrong address	A transfer to a mistyped or pasted-wrong address cannot be reversed.	Paste, never type; compare the first and last four characters; send a small test first.
No BNB for the fee	The wallet cannot send.	Keep a few dollars' worth of BNB in the wallet.
Sharing the seed phrase	The wallet is emptied.	Paper only. Nobody, no website, no 'support agent' ever needs it.
Fake apps and links	A copied app or a link in a message steals the wallet.	Official app stores only; type addresses yourself; Delta One never sends payment links in chat.
Sending from an exchange straight to Delta One	Some exchanges send from pooled addresses; a refund or a mix-up cannot be traced to you.	Exchange → your own wallet → Delta One.
Expecting a refund	A module purchase is not refundable and cannot be withdrawn.	Only purchase with money you can afford to lose.

USDT can lose its peg to the US dollar; exchanges, wallets and networks can fail or be attacked; laws on digital assets differ by country and change. None of this is controlled by Delta One. Keep amounts you cannot afford to lose out of it.

Modules pay out at most 2× the purchase price (price included); remaining balances are kept by the DAO Treasury. No-profit or losing days pay nothing.
Disclosure: illustrations at the engine's 0.50–1.00% average daily result; days vary from zero to several percent. Not a guarantee of earnings. Capital at risk.
Result and rewards figures require compliance approval before external use. Not legal, tax or financial advice.

DELTA ONE

FIRST 90 DAYS
WORKBOOK

The Fast Start plan on paper: dates, goals, lines and the list of 50

DISTRIBUTORS · OCTOBER 2026

WHAT THIS DOCUMENT IS

Your first 90 days on paper: dates, goals, lines, your list of 50.

Draft for legal and compliance review

FIRST 90 DAYS

Your plan on paper

The Fast Start planner, printed. Write your dates and your numbers in the boxes; the live planner on the distributor site computes what your numbers pay. Bring this page to every call with your sponsor.

My start date	My own module	My target rank by day 90	My sponsor

Milestone	Date	Personal enrollees (goal)	Their enrollees (goal)	Modules in my organization	Rank
Day 3					
Day 7					
Day 30					
Day 90					

PHASE 1

The first 3 days

- [ ] Complete your account and identity check; fund your wallet with USDT on BNB Smart Chain (BEP-20).
- [ ] Purchase your own module at the size your target rank requires.
- [ ] Read the Key Facts and the Product Guide; read the disclosure page of the presentation out loud.
- [ ] Write your list of 50 names. No judging, just names.
- [ ] Book your first 10 conversations for this week; send each person the Key Facts before you meet.
- [ ] Introduce your first person and open your first line.

Conversations held	Key Facts sent	Enrolled	Lines open	Notes

Modules pay out at most 2× the purchase price (price included); remaining balances are kept by the DAO Treasury. No-profit or losing days pay nothing. Disclosure: illustrations at the engine's 0.50–1.00% average daily result; days vary from zero to several percent. Not a guarantee of earnings. Capital at risk. Result and rewards figures require compliance approval before external use. Not legal, tax or financial advice.

PHASE 2

The first week

- [ ] Hold 10 conversations with the presentation; read the disclosure at every one.
- [ ] Open your second line: two enrollees qualifies you for Fuji with a 1,000 USDT purchase and 2,000 USDT of balanced volume.
- [ ] Sit with each new member on day 1: wallet, 12:00 UTC, the ten days of auto-rebuy, the day-11 switch.
- [ ] Ask every member for their own list of 50 names; book their first conversations with you present.
- [ ] Check your rank in the app after the settlement; it is rechecked every day.

Conversations held	Key Facts sent	Enrolled	Lines open	Notes

PHASE 3

The first month

- [ ] Keep the rhythm: 10 conversations a week, 2 new personal enrollees a fortnight, a list that never drops below 30 names.
- [ ] Open your third and fourth lines. Balanced lines count in full; one heavy line counts only up to its share.
- [ ] Help each enrollee introduce their first person; your differential is paid on their lines from the day they open.
- [ ] Send every prospect the Key Facts first and the Product Guide second. Never quote a figure you cannot show.
- [ ] Review your numbers at day 30 and reset the next 60 days with your sponsor.

Conversations held	Key Facts sent	Enrolled	Lines open	Notes

Modules pay out at most 2× the purchase price (price included); remaining balances are kept by the DAO Treasury. No-profit or losing days pay nothing. Disclosure: illustrations at the engine's 0.50–1.00% average daily result; days vary from zero to several percent. Not a guarantee of earnings. Capital at risk. Result and rewards figures require compliance approval before external use. Not legal, tax or financial advice.

PHASE 4

Day 90

- [ ] Reach your target rank at the day-90 settlement and hold it: only active modules count, so plan renewals as modules reach 2×.
- [ ] Five balanced lines or more, each with a leader who has opened their own lines.
- [ ] Teach the six rules to every leader.
- [ ] Stay ahead of your leaders: when someone below you matches your rank, their part of the gap is theirs.
- [ ] Re-read the Rewards Disclosure Statement and the Language Card. Both are still true.

Conversations held	Key Facts sent	Enrolled	Lines open	Notes

MY LINES

Build wide: one row per line

A line is one person you enrolled and everyone under them. For your target rank, no line counts for more than its share: 50% (Fuji, Kilimanjaro), 33⅓% (Matterhorn, Denali), 25% (Rainier), 20% (K-2, Everest).

Line	Leader	Leader's rank	Modules in the line	Counts up to	What this line needs next

Modules pay out at most 2× the purchase price (price included); remaining balances are kept by the DAO Treasury. No-profit or losing days pay nothing. Disclosure: illustrations at the engine's 0.50–1.00% average daily result; days vary from zero to several percent. Not a guarantee of earnings. Capital at risk. Result and rewards figures require compliance approval before external use. Not legal, tax or financial advice.

Draft for legal and compliance review. Not an offer. Every figure is a hypothetical illustration at the engine's average daily result of 0.50% a day; individual days vary from zero to several percent, the average can change, and results and rewards are not guaranteed. Most members earn no commission at all. A module is a software purchase whose price is not refundable and can be lost in whole or in part. Not legal, tax or financial advice.

DELTA ONE

MEMBER JOURNEY CALENDAR

What happens on every important day of a module, and what to say to the member

DISTRIBUTORS · OCTOBER 2026

WHAT THIS DOCUMENT IS

What happens to a member's module on day 0, 1, 11, 200, 400 and 440, and what you say on each day.

MEMBER JOURNEY CALENDAR

What happens on every important day, and what to say

A member who understands day 11 stays. Use this calendar on the day you enroll someone, then on each date it names. Figures are for a 1,000 USDT module at the engine's average daily result; real days vary.

Day	What happens	What the member sees	What you say
Day 0	The purchase is confirmed on BNB Smart Chain.	The module shows as active; no result yet.	"Your first result lands tomorrow at 12:00 UTC. For the first ten days, every result buys a tiny module automatically. You do nothing."
Day 1	First settlement: the module's share of the day's profit.	A result of about 5 USDT (at the average) and a first rebuy module R1 of that size.	"That's your first result. It became a tiny module of its own, with its own 2×. Some days you'll see 0 USDT. That's normal."
Days 2–10	Every result auto-rebuys; the rebuy modules earn too.	Ten small modules; about 51.14 USDT of results at work beside the 1,000 USDT by day 10.	"Your results are earning results. Nothing to decide yet."
Day 11	The first result that can be taken out. The Auto-Rebuy switch appears.	A result of about 5.26 USDT; the switch set to OFF; the wallet balance.	"Today you choose. OFF: results go to your wallet from now on. ON: they keep buying modules. Make a 5 USDT test withdrawal today so you know the path works."
Day 12 on	The switch decides every day; it can be changed any day.	Daily results in the wallet (OFF) or new modules (ON).	"Change it whenever you like; the setting at 12:00 UTC applies."
Day 30	One month.	About 158 USDT of results received in the month (switch OFF).	"A month of averages. Some days were zero. The average is what matters, and it can change."
≈ Day 200	Results received equal the purchase price.	About 1,050 USDT received in total.	"From here on, everything is rewards. The module keeps paying until 2,000 USDT."
≈ Day 400	The original module has delivered 2× and ends. The rebuy modules keep running to their own 2×.	The original shows as completed; 2,050 USDT in the wallet so far (switch OFF from day 11).	"The module did what it said. If you want to continue, buy a new one; the cycle restarts."

Modules pay out at most 2× the purchase price (price included); remaining balances are kept by the DAO Treasury. No-profit or losing days pay nothing.
Disclosure: illustrations at the engine's 0.50–1.00% average daily result; days vary from zero to several percent. Not a guarantee of earnings. Capital at risk.
Result and rewards figures require compliance approval before external use. Not legal, tax or financial advice.

Day	What happens	What the member sees	What you say
≈ Day 440 (Believer)	A Believer's module ends at 220%.	2,200 USDT delivered on 1,000 USDT, all of it rebought along the way; the switch unlocks.	"Your switch is yours now. Every rebuy module keeps running; this is the harvest."

The three messages that keep a member

When	Message (send as written, in your own name)
Day 0, after confirmation	"Confirmed. Your module earns from tomorrow's 12:00 UTC settlement. For ten days every result rebuys automatically; you don't need to do anything. Some days will show 0 USDT: that's a day without profit, and it's normal. I'll check in on day 11."
Day 11	"Today's result is the first you can take out. Open the wallet, make a small test withdrawal to your BEP-20 address, and set the switch: OFF to receive, ON to rebuy. Any questions, I'm here."
Day 200 (price back)	"Your results now equal what you paid. From here the module pays rewards until it reaches 2,000 USDT, at the average. Thank you for your patience; averages reward patience."

Never say a date as a fact. Say "at the average, about day 200". A lower average moves every date later; a day without profit pays nothing. Most members earn no commission; the calendar above is about the member's own module, not about building.

Modules pay out at most 2× the purchase price (price included); remaining balances are kept by the DAO Treasury. No-profit or losing days pay nothing.
Disclosure: illustrations at the engine's 0.50–1.00% average daily result; days vary from zero to several percent. Not a guarantee of earnings. Capital at risk.
Result and rewards figures require compliance approval before external use. Not legal, tax or financial advice.

DELTA ONE

PROSPECT
CONVERSATION GUIDE

Nine moves, seventeen questions, ten objections, ten analogies: how a Delta One conversation goes

DISTRIBUTORS · OCTOBER 2026

WHAT THIS DOCUMENT IS

How a good conversation goes: nine steps, seventeen questions, ten objections, ten comparisons that stay inside the rules.

Draft for legal and compliance review

01 · BEFORE THE CONVERSATION

How a Delta One conversation goes

The distributor edition of Aria's method: nine moves, the questions that carry them, the objections you welcome, and the analogies that explain a mechanism without promising anything. It is a guide to listening, not a script to recite.

Three things before you open your mouth. You have sent the **Key Facts** and the person has had it a day. You have the **presentation** open, or the Napkin and a pen. And you have decided to say the word **average** every time a number appears, and to read the disclosure page in full, because the people who do that are the people whose members stay.

What you are not doing. You are not persuading anyone to put in money. You are explaining a software product and an optional plan, exactly as written, and letting the person decide with full information. If a person decides no, you have done your job.

02 · THE NINE MOVES

The shape of the conversation

Move	What it looks like
Open with permission	A question that earns fifteen minutes, then the honest frame: averages, not promises. (Tracy, Ziglar)
The product in three points	Engine, module, 2× then it ends. Numbered, plain, and confirmed with 'which of the three shall I go deeper on?' (Tim Sales)
Agreement on principle	'Does it make sense that commission should only come from profit the engine actually made?' Yes before numbers. (Ziglar)
The average, slowly	The most important slide. Slow pace, one idea per sentence, one question: 'Can we agree every number from here on is an average?'
The mechanism, then the number, then the behaviour it rewards	Base matrix, differential, line balance: show how it works, show one worked number, name what to do. (SPIN)
Pictures the prospect can own	'Where on this table in ninety days?' 'Which of these four organizations looks like yours?' (Robbins, Ziglar)
Welcome the objection	Listen, label, question, answer, confirm. Every slide carries its own expected objection. (Tracy, Voss)

Modules pay out at most 2× the purchase price (price included); remaining balances are kept by the DAO Treasury. No-profit or losing days pay nothing. Disclosure: illustrations at the engine's 0.50–1.00% average daily result; days vary from zero to several percent. Not a guarantee of earnings. Capital at risk. Result and rewards figures require compliance approval before external use. Not legal, tax or financial advice.

Move	What it looks like
The disclosure, with confidence	Same voice as the benefits. It is part of the sale.
Ask for the next step, then be quiet	Read the Key Facts tonight; book the questions call; decide on an amount you could afford to lose. (Ziglar, Tracy)

03 · SLIDE BY SLIDE

The question to ask, and the objection to welcome

Each slide of the presentation carries one question that invites the prospect in, and one objection that usually arrives there. The answer is written for you; say it in your own words, keep every fact in it.

Slide	Ask the prospect	When they ask...	Answer
1 · The Momentum Plan	Would seeing every rule and number before putting in a USDT be worth fifteen minutes?	Is this an investment?	Good question, and the answer is no. You purchase a software product: a module of the Delta One AI trading engine. The engine does the trading, and your module pays you a share of what it makes until it has delivered twice the purchase price. Then it ends. Would it help if I showed you exactly how a module runs?
2 · Delta One in one minute	Which of the three would you like me to go deeper on?	Can I get my purchase price back?	Not separately, and I want to be straight with you about that. It comes back as the first half of the module's results. If the engine stops earning, what has not been paid is not owed. That is why we only ever recommend an amount you could afford to lose.
3 · Every 100 USDT of trading profit	Does it make sense that a commission should only come from profit the engine actually made that day?	Where does my commission come from if nobody new joins?	From the twenty five USDT of every hundred of trading profit. New members add volume, but the money itself is trading profit, which is exactly why a day without profit pays nobody. Would you want it any other way?
4 · 0.50% a day is the average	Can we agree that every number from here on is an average?	What did it make last month?	I'll only quote what I can show you. Ask me for the published trade reports and read them yourself. What I will never do is promise you a figure, because nobody honest can.
5 · A 1,000 USDT module at the average	Which of the five steps would you like me to explain again?	Can I stop early and take my purchase price out?	No, and I'd rather you know that now. A module cannot be cancelled before two times; only results can be withdrawn. That is the trade: no early exit, in exchange for a module that keeps paying until it has delivered two times.

Slide	Ask the prospect	When they ask...	Answer
6 · Paid two ways	Which of the two ways would you build for?	Is this a pyramid?	I'm glad you asked, because I'd ask too. Nobody here is paid for recruiting. Every commission is a percentage of what a contract earned that day from trading, and a purchase price pays nobody. Most members earn no commission at all, and the rewards disclosure says so in writing. Would you like to see that page?
7 · The two ways you are paid	Do you see why a leader who stays ahead is paid on all their lines?	Why only two percent per level?	Because it is two percent of earnings, every single day, not two percent of a purchase once. Rewards comes from volume: a million USDT of modules inside your paid levels is a hundred USDT a day from the base matrix alone, before the differential.
8 · Seven ranks	Where do you see yourself on this table in ninety days?	Does my own purchase count toward volume?	No. Your own purchase is checked separately against the rank's minimum, and qualifying volume is your downline. That keeps the rank honest: you rank on what your team builds, not on what you buy.
9 · Build wide: the line balance rule	How many lines could you open in your first month?	What if one of my people is a superstar?	Wonderful for them, and wonderful for you. Their line counts up to the share, and your differential on that line can still be large. To rank up, you need other lines. The superstar is a reason to build wide, not a reason to stop.
10 · The base matrix in numbers	What would a million USDT of volume look like in your network?	Is three thousand a month typical?	No, and I won't pretend it is. It needs a million USDT of active modules inside your paid levels, and most members earn no commission at all. It is what the arithmetic pays at that volume, at the average, no more and no less.
11 · The breakage differential	Opening new lines or staying ahead: which comes more naturally to you?	What happens when my leader catches up to my rank?	Their part of the gap is theirs from that day, and they earned it. Your answer is the same as theirs was: keep ranking up and keep opening new lines. The plan keeps paying the person who keeps leading.
12 · Four organizations, worked to the USDT	Which of these four looks most like the organization you would build?	These numbers look small.	They are honest, and I'd rather show you honest numbers than impressive ones. They are monthly figures at the average, for small organizations, and your own module's result comes on top. The larger organizations are worked through in the Distributor Guide.
13 · The Believer	Is the Believer a choice you'd make for yourself?	Can a Believer change their mind?	No. Once chosen, the switch cannot be turned off until two hundred and twenty percent has been delivered. That is why I'd only suggest it for a module you are certain you won't need to draw on.

Slide	Ask the prospect	When they ask…	Answer
14 · Six rules to remember	Which of the six rules do you think most people forget?	When exactly am I paid?	Every day at twelve noon UTC, for the previous day's profit, straight into your app wallet. Withdrawals are instant, five USDT minimum, gas fee only. Daily pay, no waiting for month end.
15 · The documents behind this presentation	May I send you the Key Facts and the Product Guide right now?	Which one do I send first?	The one page key facts, always. Then the product guide. A prospect who has read both has no surprises, and a prospect with no surprises stays.
16 · Important disclosures	Is there anything on this page you'd like me to explain?	Do I really have to read all of that?	Yes, every time, and I'll tell you why: compliance approval of these figures and your reading of the disclosure are what make this a professional business instead of a promise. The people you introduce deserve the same.
17 · Build wide. Stay ahead. Tell the truth about the risks.	What would you like to do next?	What is the next step?	Read the key facts and the product guide, ask me every question you have, and only then decide on a module size you could afford to lose. Shall we put a time in the diary for those questions?

04 · WELCOME THE OBJECTION

Listen, label, ask, answer, confirm

An objection is the prospect telling you what they need to hear. Listen to the end. Label the feeling ("it sounds like the word average worries you"). Ask one question to understand it. Answer plainly, with the fact. Confirm ("does that answer it?"). Then stop talking.

They say	You answer
Is this an investment?	No. A software purchase of the AI engine, in modules. The engine trades; the module pays a share of what it makes until 2× the price, then ends. 'Would it help to see how one module runs?'
Can I get my money back?	Not separately; it comes back as the first half of the results. The purchase price is not refundable. 'That is why I only ever suggest an amount you could afford to lose.'
Is this a pyramid?	Nobody is paid for recruiting; every commission is a share of a contract's daily earnings from trading, and a purchase pays nobody. Most members earn no commission; the rewards disclosure says so. 'Shall I show you that page?'
What did it make last month?	'I will only quote what I can show you.' Point to the published trade reports. Never promise a figure.

They say	You answer
The numbers look small.	'They are honest.' Monthly, at the average, for small organizations; the member's own module result comes on top. Larger organizations are in the Distributor Guide.
It sounds too good.	Label it: 'It sounds like the word average worries you, and it should.' Then the variance: some days zero, some days several percent; no profit, no payout; the average can change.
I need to think about it.	'Of course. What would you most like to think about?' Answer that, then: 'May I send you the Key Facts and the Product Guide tonight?'
I don't know anyone to introduce.	'Then start as a member, not a distributor.' The module stands on its own; the plan is optional. Most members never use it.
What if my leader catches up to my rank?	Their part of the gap is theirs from that day, and they earned it. 'Your answer is the same as theirs was: rank up and open new lines.'
Why should I trust Delta One?	The founders, the written rules, the daily settlement, the audit. 'Read the Key Facts, then ask me the hardest question you have.'

05 · ANALOGIES

Pictures that explain a mechanism

Every analogy below keeps its own cold-oven day: it explains how something works and never suggests certainty the product does not have. Use one at a time, and follow it with the real rule.

Analogy	How it goes
The engine is a bakery	Bolt bakes every day. Some days the oven is cold and nothing comes out; some days there are more loaves than shelves. A module buys you a share of what the bakery produces, not a share of the building. 'No profit, no payout' is a cold-oven day.
The average is a farmer's yield	A farmer talks in tons per acre over a season, never in what one field did on one Tuesday. Half a percent a day is Delta One's yield per acre; any one day is weather.
A module is a pre-paid meter	You buy the engine's time, it ticks until it has delivered twice what you paid, and then the meter is empty. The first half of the ticks repay the price; the second half is the rewards. You cannot ask for the money back from a meter.
Rebuy is planting seed	Every result you rebuy is seed, not bread: a new module with its own two times. A Believer plants the whole harvest for the module's whole life, which is why the Believer module delivers more and why nothing is in the barn until the switch unlocks.
The line balance rule is a table	A table needs legs on more than one side or it tips. One giant leg and three stumps is a Kilimanjaro, not a Matterhorn. Build wide, like a table; not tall, like a flagpole.
The base matrix is a toll road	Two percent of each contract's daily earnings on every level your rank reaches: a toll on every car that passes, small per car, serious on a busy road. Volume is the traffic.

Modules pay out at most 2× the purchase price (price included); remaining balances are kept by the DAO Treasury. No-profit or losing days pay nothing.
Disclosure: illustrations at the engine's 0.50–1.00% average daily result; days vary from zero to several percent. Not a guarantee of earnings. Capital at risk.
Result and rewards figures require compliance approval before external use. Not legal, tax or financial advice.

Analogy	How it goes
The differential is the mountain guide's bonus	The first guide to the summit is paid for the whole climb above the last camp below them. When a climber below reaches the same camp, that part of the climb is theirs. Stay ahead.
Ranks are mountains	Every mountain is climbed every day, because ranks are rechecked at every settlement. You do not own a summit; you stand on it as long as your team does.
Payday is the baker's bell	At twelve noon UTC the bell rings and the day's share is in the wallet. Daily pay, not month end; five USDT minimum, only the network fee.
Honesty is the lighthouse	Prospects do not buy the ship; they buy the certainty that the person steering it tells the truth about the rocks. The disclosure is the lighthouse. Aria reads it in full, every time.

06 · CLOSING

Ask for a small next step, then be quiet

- "Read the Key Facts tonight; it is one page. Read the Product Guide this week. Then call me with your questions. Shall we put a time in the diary?"
- "Only after your questions are answered, decide on a module size you could afford to lose entirely."
- "If you'd rather start as a member and not introduce anyone, that is a complete choice. The plan is optional."
- Then say nothing. The next person to speak decides what happens next; let it be them.

The disclosure page is read in full, every time, in the same voice as the benefits. Every figure is an illustration at the engine's average daily result; results and rewards are not guaranteed; most members earn no commission at all; a module's purchase price is not refundable and can be lost. Draft for legal and compliance review.

DELTA ONE

FOLLOW-UP MESSAGES

Ten compliant messages for WhatsApp and email, from first contact to day 11

DISTRIBUTORS · OCTOBER 2026

WHAT THIS DOCUMENT IS

Ten messages you can send as they are, from first contact to day 11.

FOLLOW-UP MESSAGES

Ten messages, written to be sent as they are

Copy, fill the brackets, send in your own name. Each one says 'average', says what is not guaranteed, and sends a document rather than a claim. Do not add figures of your own.

Before the first meeting

Hi {name}, thank you for making time on {day}. Before we talk, here is the one-page Key Facts about the Delta One module: what it is, what it delivers on average, and the risks. Please read it first; it will make our fifteen minutes useful. {link}

After the presentation

Thank you for your time today, {name}. As promised: the Key Facts (one page) and the Module Product Guide. Two things to keep in mind as you read: every figure is an average, not a promise, and a module's purchase price is not refundable, so only ever use money you could afford to lose. I'm happy to answer any question; shall we speak on {day}?

The questions call

Hi {name}, looking forward to your questions on {day} at {time}. If it helps, write them down as you read; there is no question too small, and 'why would I not do this?' is a good one to ask me.

They want to think

Of course, {name}; this should be a considered decision. If it would help, I can send the Simple Words version (pictures and short sentences) or the FAQ. And whatever you decide, thank you for listening properly.

They decide yes

Welcome, {name}. Here is your enroller link: {link}. Next steps are in the Getting Started Checklist (attached): account and identity check, your own BEP-20 wallet, then the module. Please do not send any USDT until we have done the wallet step together: the network must be BNB Smart Chain (BEP-20), and a wrong network cannot be reversed. When would you like to do it?

Modules pay out at most 2× the purchase price (price included); remaining balances are kept by the DAO Treasury. No-profit or losing days pay nothing. Disclosure: illustrations at the engine's 0.50–1.00% average daily result; days vary from zero to several percent. Not a guarantee of earnings. Capital at risk. Result and rewards figures require compliance approval before external use. Not legal, tax or financial advice.

They decide no

Thank you for considering it, {name}, and for telling me straight. No follow-up from me unless you ask. If you ever want the documents again, they are here: {link}.

Day 0, module confirmed

Confirmed, {name}. Your module earns from tomorrow's 12:00 UTC settlement. For the first ten days every result buys a tiny module automatically; you don't need to do anything. Some days will show 0 USDT: that is a day without profit, and it is normal. I'll check in on day 11.

Day 11

Hi {name}, today's result is the first you can take out. Open the wallet, make a small test withdrawal to your BEP-20 address, and set the switch: OFF to receive, ON to rebuy. Change it any day. Any questions, I'm here.

A member asks about introducing others

Glad you asked, {name}. The plan is optional, and most members never use it. If you would like to, the first step is the Distributor Guide and the Language Card (attached): what we say and what we never say. Then let's do one conversation together.

A member asks for a figure

I'll only quote what I can show you, {name}: the published documents and the trade reports in the app. The figure you asked about is {figure} at the engine's average daily result; real days vary from zero to several percent, and nothing is guaranteed.

Three messages you never send

- Any message with a daily, monthly or yearly figure that is not in a published document, or any figure without the word "average".
- Any message that says "guaranteed", "safe", "no risk", "passive income", "deposit", "investment" or "return".
- A screenshot of your own wallet or earnings. It is your business, and it is not typical.

Modules pay out at most 2× the purchase price (price included); remaining balances are kept by the DAO Treasury. No-profit or losing days pay nothing. Disclosure: illustrations at the engine's 0.50–1.00% average daily result; days vary from zero to several percent. Not a guarantee of earnings. Capital at risk. Result and rewards figures require compliance approval before external use. Not legal, tax or financial advice.

Messages are marketing material. Until compliance has signed off the documents, every message carries 'draft for legal and compliance review' where it links to one. Keep copies of what you send; the Policies & Procedures require it.

Modules pay out at most 2× the purchase price (price included); remaining balances are kept by the DAO Treasury. No-profit or losing days pay nothing.
Disclosure: illustrations at the engine's 0.50–1.00% average daily result; days vary from zero to several percent. Not a guarantee of earnings. Capital at risk.
Result and rewards figures require compliance approval before external use. Not legal, tax or financial advice.

DELTA ONE

NEW MEMBER
WELCOME PACK

What to send a new member and when: day 0, day 11, day 200, day 400

DISTRIBUTORS · OCTOBER 2026

WHAT THIS DOCUMENT IS

What to send a new member and when: day 0, 1, 11 and 200.

NEW MEMBER WELCOME PACK

What to send, and when

A sequence, not a pile. The three documents on day 0, the message on day 11, the message when the purchase price is back. Every item exists; this page tells you the order.

When	Send	Why
Before they decide	Key Facts & Risks (one page)	Nobody decides without the risks in front of them.
Day 0, after confirmation	The Plan in Simple Words · Module Product Guide · Member FAQ · USDT & Wallet Guide (section 5, withdrawing)	Everything a member needs for the first year, in the order they will read it.
Day 1	The 'Day 0' message from the Follow-up Messages	Explains the first ten days and the 0 USDT days before they happen.
Day 11	The 'Day 11' message; the Member Journey Calendar page on the switch	The day most members are lost if nobody explains the switch and the first withdrawal.
Day 30	A call, not a document	Ask what they have seen; correct any expectation that is not an average.
≈ Day 200	The 'price back' message	The moment patience is rewarded; say it, and say it is at the average.
≈ Day 400	A call: the module has ended; the rebuys continue	Explain the end of the cycle before they see it; offer a new module without pressure.
If they ask about introducing	Distributor Guide · Language Card · Getting Started Checklist	The plan is optional; the kit comes with the rules of speech.

The welcome message (day 0)

Welcome to Delta One, {name}. Attached are the four documents every member gets: the plan in simple words, the module product guide, the member FAQ and the wallet guide. Two things to remember from all of them: every figure is an average, not a promise, and your module pays until it has delivered two times its purchase price, then ends. Your first result lands tomorrow at 12:00 UTC. I'll check in on day 11.

What you never send a new member

- Partner documents, Treasury models, audits or anything from the partner library.
- Screenshots of your own earnings.
- Any figure that is not in a published document.

Modules pay out at most 2× the purchase price (price included); remaining balances are kept by the DAO Treasury. No-profit or losing days pay nothing. Disclosure: illustrations at the engine's 0.50–1.00% average daily result; days vary from zero to several percent. Not a guarantee of earnings. Capital at risk. Result and rewards figures require compliance approval before external use. Not legal, tax or financial advice.

Draft for legal and compliance review. Not an offer. Every figure is a hypothetical illustration at the engine's average daily result of 0.50% a day; individual days vary from zero to several percent, the average can change, and results and rewards are not guaranteed. Most members earn no commission at all. A module is a software purchase whose price is not refundable and can be lost in whole or in part. Not legal, tax or financial advice.

DELTA ONE

READING YOUR DAILY STATEMENT

Every line of the 12:00 UTC statement, and why today paid less than yesterday

MEMBERS · DISTRIBUTORS · OCTOBER 2026

WHAT THIS DOCUMENT IS

The daily statement, line by line, so you can explain every number.

Draft for legal and compliance review

YOUR DAILY STATEMENT

How to read it

Every day at 12:00 UTC the app posts one statement. This page explains every line on it. The layout will follow the app; the lines and the arithmetic are fixed by the plan.

The lines a member sees

Line	What it is	How it is computed
Trading result (gross)	The engine's approved profit for the day.	Published with the trade report; signed. Zero or negative: nothing below is paid.
Your module's result	Your share of the members' 50%.	members' pool × your module's price ÷ all active modules' prices; limited to what your module may still deliver before its cap.
Destination	Where the result went.	REBUY (a new rebuy module of that size) on days 1–10, for a Believer, or when your switch is ON; otherwise WALLET.
Delivered so far / cap	Progress to 2× (2.2× for a Believer).	Running total of every result since the module started, whatever its destination.
Rebuy modules	The small modules your results opened.	Each with its own price, cap and progress; they end at their own 2×.
Wallet balance	USDT available to withdraw.	Results with destination WALLET + commissions + founder payouts − withdrawals and network fees.

The lines a distributor sees

Line	What it is	How it is computed
Rank today	The rank you held at this settlement.	Rechecked daily: own active purchase, enrollees with an active module, qualifying volume with the line share rule. Only active modules count.
Base matrix	2% of each contract's result on the levels your rank reaches.	Σ over contracts in levels 1 to your paid depth of 2% × that contract's result; then capped at your rank's daily cap.
Cap applied	Base above your rank's daily cap.	The difference between base before and after the cap. It is not paid and not carried forward.
Breakage differential	Your gap on each contract in each line.	The part of the 42% pool between your entitlement and the highest entitlement already claimed below you in that line; never capped.
Commission paid	Base after the cap + differential.	Credited to your wallet at the same settlement as the results it came from.

Modules pay out at most 2× the purchase price (price included); remaining balances are kept by the DAO Treasury. No-profit or losing days pay nothing.
Disclosure: illustrations at the engine's 0.50–1.00% average daily result; days vary from zero to several percent. Not a guarantee of earnings. Capital at risk.
Result and rewards figures require compliance approval before external use. Not legal, tax or financial advice.

Why today paid less than yesterday

- A smaller trading result: both your module's result and every commission move with the day's profit. A day without profit pays nothing anywhere.
- A module ended: it reached 2× and stopped; its contracts no longer pay you. Check 'delivered so far / cap' on your leaders' modules.
- Your rank changed: a module in a line ended, an enrollee's module ended, or a line now counts for less under the share rule. The statement shows the rank at every settlement.
- A leader below you ranked up: their part of the gap is now theirs. Stay ahead.
- The cap: your base matrix reached your rank's daily cap. Ranking up raises it.

Figures on the statement are the published rules applied to the day's actual result. They are not averages: the average appears only in illustrations. Nothing on a statement is a forecast of the next one.

Modules pay out at most 2× the purchase price (price included); remaining balances are kept by the DAO Treasury. No-profit or losing days pay nothing.
Disclosure: illustrations at the engine's 0.50–1.00% average daily result; days vary from zero to several percent. Not a guarantee of earnings. Capital at risk.
Result and rewards figures require compliance approval before external use. Not legal, tax or financial advice.

DELTA ONE

THE LEADER'S ONE-PAGER

Open new lines, stay ahead, keep leaders active: how the differential is earned

LEADERS · OCTOBER 2026

WHAT THIS DOCUMENT IS

Three habits of a leader: open new lines, stay ahead, keep your leaders active.

Draft for legal and compliance review

FOR LEADERS

Open new lines. Stay ahead. Keep leaders active.

The breakage differential is where leaders are paid. Three rules decide how much, and all three are in your hands.

Rank	Fuji	Kilimanjaro	Matterhorn	Denali	Rainier	K-2	Everest
Entitlement	6%	12%	18%	24%	30%	36%	42%
Gap over the rank below	6	6	6	6	6	6	6

1 · Open new lines where you are the first leader

In a line where nobody below you holds a rank, the whole gap between zero and your entitlement is yours on every contract in that line: a Denali at 24% collects the full 24 points above an unranked line, 18 above a Fuji. A million USDT of modules in such a line pays about 900 USDT a day in differential at the average, on top of the base matrix. New lines are worth more to you than deeper old ones.

2 · Stay ahead

When someone below you reaches your rank, their part of the gap is theirs from that settlement. That is the plan working: they earned it. Your answer is the one they will give their own leaders: rank up, and open the next line. The plan pays the person who keeps leading, and it rechecks every day, so a rank is kept, not won.

3 · Keep leaders active

Only active modules count toward qualifying volume. Every module in your organization ends at 2× (at the average, about 400 days after it started): a line whose modules all end in the same month drops out of your volume together. Know when your leaders' modules reach 2× and talk to them a month before; a renewed module counts from the next settlement.

The arithmetic of the next rank

To reach	Own purchase	Lines	Each line counts up to	Qualifying volume	Paid levels
Kilimanjaro	2,500 USDT	3 enrolled · 2+ lines	2,500 USDT	5,000 USDT	1–6
Matterhorn	6,000 USDT	4 enrolled · 3+ lines	4,000 USDT	12,000 USDT	1–9
Denali	12,000 USDT	5 enrolled · 3+ lines	8,333 USDT	25,000 USDT	1–12
Rainier	25,000 USDT	7 enrolled · 4+ lines	18,750 USDT	75,000 USDT	1–15
K-2	50,000 USDT	12 enrolled · 5+ lines	50,000 USDT	250,000 USDT	1–18
Everest	200,000 USDT	21 enrolled · 5+ lines	200,000 USDT	1,000,000 USDT	1–21

Modules pay out at most 2× the purchase price (price included); remaining balances are kept by the DAO Treasury. No-profit or losing days pay nothing.
Disclosure: illustrations at the engine's 0.50–1.00% average daily result; days vary from zero to several percent. Not a guarantee of earnings. Capital at risk. Result and rewards figures require compliance approval before external use. Not legal, tax or financial advice.

Your leaders read the same documents as you. Teach them the six rules, give them the Language Card, and never let a figure leave your line without the word "average". Most members earn no commission at all; a leader's rewards depend on an organization that keeps working, and on the engine making a profit on the day.

Modules pay out at most 2× the purchase price (price included); remaining balances are kept by the DAO Treasury. No-profit or losing days pay nothing.
Disclosure: illustrations at the engine's 0.50–1.00% average daily result; days vary from zero to several percent. Not a guarantee of earnings. Capital at risk.
Result and rewards figures require compliance approval before external use. Not legal, tax or financial advice.

DELTA ONE

ABOUT DELTA ONE

What it is, who runs it, how the money moves, and the documents that bind it

MEMBERS · PROSPECTS · OCTOBER 2026

WHAT THIS DOCUMENT IS

Who Delta One is: the engine, the founders, custody, settlement at 12:00 UTC.

ABOUT DELTA ONE

What it is, who runs it, how the money moves

The customer-level facts about the company behind the module: the engine, the founders, custody and settlement, and the documents that bind it.

The product

Delta One sells one thing: access to its AI trading engine, software that looks for the right trades across arbitrage, high-frequency and leveraged strategies and does all the trading itself. Members purchase that engine in **modules**, from 1,000 USDT, as software as a service. Every day the engine makes a profit, each module receives its share of the members' half; a module delivers at most two times its purchase price, then ends. There is no account to open, nothing to trade yourself and nothing to manage: the purchase is the product.

The founders

James G. Pack, founder: forty years of entrepreneurial leadership, including the co-founding and presidency of ASEA, telecom ventures and Utah real estate. **Ricky Lundell**, president: world champion grappler, head coach to UFC champions and trainer of special-operations personnel. Their profiles and the story of the partnership are in the document set. The trading engine is run by its architect under the company's multi-signature controls.

How the money moves

Step	What happens
Purchase	You pay the purchase price in USDT on BNB Smart Chain (BEP-20) to a payment address shown in the app. It goes into custody wallets under multi-signature control: no single person can move it.
Trading	Approved trading accounts run the engine. Daily realised profit is confirmed from exchange statements and published with the trade report.
Settlement	At 12:00 UTC the day's profit is split 50 USDT to members, 25 USDT to the compensation plan and 25 USDT to the DAO Treasury; results, rebuy modules and commissions are posted to app wallets.
Withdrawal	From the app wallet, any time, 5 USDT minimum, sent immediately to your BEP-20 address; the network fee is deducted.
Control	Payout batches are produced from approved results and signed by more than one key holder; large Treasury movements are time-locked. The daily cycle is audited against the published rules.

The documents that bind it

- Module Product Guide, Key Facts and Member FAQ: what you buy and the risks.

Modules pay out at most 2× the purchase price (price included); remaining balances are kept by the DAO Treasury. No-profit or losing days pay nothing. Disclosure: illustrations at the engine's 0.50–1.00% average daily result; days vary from zero to several percent. Not a guarantee of earnings. Capital at risk. Result and rewards figures require compliance approval before external use. Not legal, tax or financial advice.

- Momentum Plan Guide and Distributor Guide: every rule of the plan, worked to the USDT.
- Rewards Disclosure Statement: what members in the model actually earn.
- Math Audit: the published figures checked by 1,000 re-runs and an independent model.

Delta One is not a bank, a fund or a regulated investment product, and makes no guarantee. A module is a software purchase whose price is not refundable; the engine can lose money; USDT can lose its peg; exchanges, custodians and networks can fail; laws differ by country. Draft for legal and compliance review; the issuing entity and licensing are being confirmed.

DELTA ONE

DISTRIBUTOR POLICIES AND PROCEDURES

The rules of being a Delta One distributor: claims, advertising, members, money, complaints, leaving

DRAFT FOR LEGAL REVIEW · OCTOBER 2026

WHAT THIS DOCUMENT IS

The rules every distributor agrees to: claims, advertising, members, money, complaints, leaving. Draft for legal.

DISTRIBUTOR POLICIES AND PROCEDURES

The rules of being a Delta One distributor

Plain rules for anyone who introduces others to Delta One. They protect members, protect you and protect the company. Breaking them ends the distributorship.

Draft for legal review. This document was prepared in plain language so that counsel can edit a complete text rather than start from nothing. It is not in force until Delta One's legal entity, governing law and regulatory position have been confirmed and the document has been approved and published. Bracketed items are decisions for Delta One or its lawyers.

1 · WHO IS A DISTRIBUTOR

Definitions

- A **member** holds a Delta One account and one or more modules. A **distributor** is a member who has accepted the Distributor Agreement and introduces others. Introducing is optional; most members never do it.
- A **line** is one person you personally enrolled and everyone enrolled beneath them. Your **organization** is all your lines.
- **Delta One** means [the issuing entity], its DAO Treasury and its authorised staff. **The app** is the Delta One application and web app.
- **Published documents** are the current versions on the Delta One document sites; they alone state the figures and rules a distributor may use.

2 · BECOMING AND REMAINING A DISTRIBUTOR

Eligibility and standing

- You are at least 18 (or the age of majority where you live), have completed identity verification, hold at least one active module, and have accepted the Distributor Agreement.
- One person, one account, one position. Household members may each hold their own account under their own name; an account may not be held for someone else.
- Your enroller is fixed once your first module is confirmed. Transfers between lines are not permitted except on written approval by Delta One for an error at enrollment.

- You remain in good standing while you follow these policies, keep an active module and hold no unresolved complaint against you. Rank is a daily qualification, not a status.

3 · WHAT YOU MAY SAY

Claims, figures and language

- Use only figures that appear in a published document, with the word **average** every time a rate or a date appears, and never as a promise.
- Describe the product as a **purchase** of the AI engine in modules, software as a service, delivering at most 2× its price then ending. Never as a deposit, investment, fund, account, savings or interest.
- Describe commission as a share of a contract's **daily earnings**, paid only when the engine made a profit that day; never as passive income, residual rewards or a reward for recruiting.
- State, in every presentation and in every written offer: results and rewards are not guaranteed; most members earn no commission at all; the purchase price is not refundable and can be lost.
- Never show your own or anyone's earnings as typical or expected. Never claim or imply that Delta One is a bank, is regulated as a fund, is government-backed or is risk-free.
- Read the disclosure page of the presentation in full at every presentation. Hand the Key Facts to every prospect before they decide.
- The Language Card is part of these policies.

4 · ADVERTISING AND SOCIAL MEDIA

Where and how you may promote

- Use only Delta One's published materials, unchanged, or your own words that follow section 3. Do not create your own figures, charts, videos or documents with Delta One's name or mark without written approval.
- Every public post that mentions results or commission carries the disclosure line: "Figures are illustrations at the engine's average daily result; results and rewards are not guaranteed; most members earn no commission; capital at risk." Until compliance sign-off, add "Draft for legal and compliance review".
- No paid advertising, no mass messaging, no cold messaging of strangers, no scraping of contacts, no use of Delta One's name in domain names, handles or page names without written approval.
- No claims about regulation, licences, partnerships, exchanges, custodians or audits beyond what the published documents say.
- Delta One may require any post, page or video to be corrected or removed within 24 hours of notice.

5 · ENROLLING AND SUPPORTING MEMBERS

Your duties to the people you introduce

- Before a prospect decides: the Key Facts, the risks, the fact that the plan is optional, and the fact that a module's price is not refundable.
- Never recommend a module size. Say only: "only an amount you could afford to lose entirely". Never lend, collect or hold money or USDT for a member, and never enter a member's wallet or account.
- Never pay for, or buy modules for, a prospect or member, and never offer any inducement outside the published plan.
- On day 0 and day 11 you sit with your new member (in person or by call): wallet, network, the first ten days, the switch, the first withdrawal. The Member Journey Calendar is the standard.
- A member may always contact Delta One directly. You do not stand between a member and the company.

6 · MONEY

Purchases, commission, taxes and records

- All purchases are made by the member, from the member's own wallet, to the address shown in the app. Distributors never receive, forward or hold purchase money.
- Commission is computed and paid by Delta One at the 12:00 UTC settlement to your app wallet in USDT, under the published Momentum Plan. No other payment, bonus or reward exists.
- You are responsible for your own taxes and declarations where you live. Delta One issues statements, not tax advice.
- Keep copies of what you send to prospects and members for [two] years. Delta One may ask for them when handling a complaint.
- A purchase made with funds that are not yours, with another person's identity, or to manipulate rank is a breach and may be reversed.

7 · COMPLAINTS AND BREACHES

What happens when something goes wrong

Situation	Consequence
A prospect or member complains about a claim you made	Delta One reviews your materials and messages; you may be asked to correct the record in writing to the person.

Situation	Consequence
An unapproved figure or a banned word in public material	Written warning and removal within 24 hours; a second instance suspends commission for [30] days.
Promising or implying a guaranteed result, or presenting earnings as typical	Immediate suspension pending review; termination on confirmation.
Handling a member's money, wallet or account; paying for a prospect's module; stacking positions	Termination and reversal of affected commission; referral to authorities where the law requires.
Harassment, pressure selling, or targeting of vulnerable people	Termination.

You may answer any allegation in writing within [7] days. Decisions are made by Delta One's compliance function and may be appealed once to [the board / an independent reviewer]. Suspension stops commission; it does not stop your own modules, which continue under their own terms.

8 · LEAVING

Termination, resignation and cooling-off

- You may resign as a distributor at any time in writing. Your modules continue under their own terms; your organization remains in place and your line's commission flows to the next qualified upline under the published rules.
- You may cancel the Distributor Agreement within [14] days of accepting it with no consequence. [Jurisdictional cooling-off rights for purchases are a matter for legal review; the module's own terms state that a purchase is not refundable.]
- Delta One may terminate for breach under section 7, or on [30] days' notice if the distributor programme ends or changes in a way that requires a new agreement.
- After termination you may not present yourself as connected to Delta One, use its materials or contact its members on its behalf.

9 · CHANGES

How these policies change

Delta One may change these policies with [30] days' notice on the document site and in the app, except where a change is required immediately by law or a regulator. The current version on the document site is the one in force. Changes do not reduce commission already earned.

Programs that pay introducers from the trading results of the people they enrol are regulated as securities and/or direct selling in many jurisdictions. These policies are a draft for legal review; licensing, the governing law and the issuing entity are to be confirmed before any distributor activity begins.

DELTA ONE

DISTRIBUTOR AGREEMENT

The agreement a member accepts to become a distributor: appointment, commission, obligations, ending

DRAFT FOR LEGAL REVIEW · OCTOBER 2026

WHAT THIS DOCUMENT IS

The agreement between you and Delta One. Draft for legal.

DISTRIBUTOR AGREEMENT

Between you and Delta One

The agreement a member accepts to become a distributor. Plain language, complete, and marked where lawyers must decide.

Draft for legal review. This document was prepared in plain language so that counsel can edit a complete text rather than start from nothing. It is not in force until Delta One's legal entity, governing law and regulatory position have been confirmed and the document has been approved and published. Bracketed items are decisions for Delta One or its lawyers.

1 · Parties

This agreement is between [the Delta One issuing entity, registered at …] ("Delta One") and the member named in the app who accepts it ("you"). You confirm you are at least 18, have completed identity verification, and hold an active module.

2 · What you are appointed to do

Delta One appoints you as an independent distributor to introduce prospective members to Delta One's module product and, if they wish, to the Momentum Plan, in the territories where Delta One accepts members. You may do so only in accordance with the published documents and the Distributor Policies and Procedures, which form part of this agreement.

3 · Independent status

You are an independent contractor, not an employee, agent, partner or representative of Delta One. You may not bind Delta One, make promises on its behalf, or use its name except as the Policies allow. You bear your own costs and are responsible for your own taxes, registrations and declarations.

4 · Commission

Delta One pays you commission under the Momentum Plan as published: the base matrix and the breakage differential, computed at each 12:00 UTC settlement on the daily earnings of the active contracts in your organization, at the rank you hold at that settlement, and credited to your app wallet in USDT. No other compensation is owed. Commission is paid only on days the engine produces an approved profit. Delta One may correct an erroneous payment at the next settlement and will notify you.

5 · No guarantees

Delta One makes no promise of any result, rewards, rank or market. You acknowledge that most members earn no commission at all, that results depend on trading that can produce nothing or lose money, that a module's purchase price is not refundable and can be lost, and that nothing in the published materials is a forecast.

6 · Your obligations

You will: follow the Policies and the Language Card; use only published figures, with the word "average"; read the disclosure page at every presentation; provide the Key Facts before any decision; never handle a member's money or wallet; never pay for another person's module; keep records for [two] years; and correct or remove any material Delta One objects to within 24 hours.

7 · Materials and brand

Delta One's name, mark, documents, films and software are its property and are licensed to you for use unchanged, for the term of this agreement, under the Policies. You acquire no rights in them. Materials you create about Delta One must be approved before use and are licensed to Delta One on creation.

8 · Data

You will handle prospects' and members' personal data only to introduce and support them, keep it secure, and delete it when they ask or when this agreement ends, under the Privacy & KYC Note and applicable law. You will not export, sell or share member lists.

9 · Term, cancellation and termination

This agreement runs until ended. You may cancel within [14] days of accepting it with no consequence, and resign at any time in writing. Delta One may terminate for breach under the Policies, or on [30] days' notice. On ending: commission earned to the last settlement is paid; your modules continue under their own terms; your organization remains and its commission flows under the published rules; you stop presenting yourself as connected to Delta One.

10 · Suspension

Delta One may suspend commission during an investigation of an alleged breach. Suspension does not affect your own modules.

11 · Liability

To the extent the law allows, Delta One's liability to you under this agreement is limited to commission due and unpaid. Nothing limits liability for fraud or for anything that cannot be

limited by law. [Counsel to review per jurisdiction.]

12 · Changes

Delta One may amend the Momentum Plan, the Policies and this agreement with [30] days' notice on the document site and in the app; amendments do not reduce commission already earned. Continuing to act as a distributor after the notice period is acceptance.

13 · Governing law and disputes

This agreement is governed by the law of [jurisdiction]. Disputes go first to Delta One's complaints procedure, then to [arbitration / the courts of …]. [Counsel to confirm consumer-protection and direct-selling rules that apply in each territory.]

14 · Entire agreement

This agreement, the Policies and Procedures, the Language Card, the Privacy & KYC Note and the published documents are the whole agreement. Nothing said by any person outside them is a term.

Acceptance

Accepted in the app by the member named above on the date shown, after reading the Key Facts, the Rewards Disclosure Statement, the Policies and Procedures and the Language Card.

Delta One (authorised signatory, date)

DELTA ONE

PRIVACY AND IDENTITY CHECKS

What Delta One collects, why, who sees it, and what you can ask

DRAFT FOR LEGAL REVIEW · OCTOBER 2026

WHAT THIS DOCUMENT IS

What is collected for the identity check, why, and who sees it.

PRIVACY AND IDENTITY CHECKS

What Delta One collects, why, and what you can ask

For members and distributors. Plain language; the formal privacy policy follows this structure.

Draft for legal review. This document was prepared in plain language so that counsel can edit a complete text rather than start from nothing. It is not in force until Delta One's legal entity, governing law and regulatory position have been confirmed and the document has been approved and published. Bracketed items are decisions for Delta One or its lawyers.

What is collected

Data	Why	Kept
Name, date of birth, nationality, address, government ID and a selfie	Identity verification (KYC) required before a module can be purchased and before withdrawals; anti-money-laundering law.	[Five] years after the account closes, as the law requires.
Email and phone	Account security, settlement notices, statements.	While the account exists.
Wallet addresses and transaction hashes	Purchases and withdrawals on BNB Smart Chain; your withdrawal address is the only address Delta One pays.	With the account records.
Enroller, organization, rank history	Operating the Momentum Plan; statements; complaints.	With the account records.
App usage and device data	Security, fraud prevention, support.	[12] months.

Who sees it

- Delta One's staff and processors who need it: identity-verification provider, custody and settlement systems, support, compliance and auditors, under contract.
- Your enroller and uplines see your name, your rank and your organization's volume as the plan requires; never your ID documents, wallet balances or personal results.
- Authorities, when the law requires. Nobody else; Delta One does not sell data.

What you can ask

- A copy of your data; correction of errors; deletion of what the law does not require Delta One to keep; a complaint to [the supervisory authority].
- To close your account: modules run to their end under their own terms; identity records are kept for the legal period, then deleted.

For distributors

- Prospects' names and contact details are personal data: collect only what you need, keep them secure, use them only to introduce and support, and delete them when asked or when you stop being a distributor.
- Never photograph or store another person's ID, wallet, seed phrase or statement. Never post a member's data or results.

Security

- Two-factor authentication on every account; withdrawal only to the verified address; multi-signature control of company wallets; no staff member can see or ask for your seed phrase.
- Delta One will never message you a payment link or ask for your seed phrase. Report anything that does to [security contact].

Digital-asset and data-protection law differs by country and changes. This note is a draft for legal review; the formal privacy policy, the data controller's identity and the supervisory authority are to be confirmed.
